DEBATE WAR REVENUE BILL DEFENDS THE RICH

(By Associated Press) WASHINGTON, Sept. 10.—Representative Longworth declared that wealth was taxed about to the strain of pain by the new war revenue bill when debate was resumed this morning. He warned his hearers that additional levies hereafter must be borne by people purchasing articles of daily necessity. He commended the bill as a whole, although he criticized some features. Mr. Longworth portrayed conditions under which the German people are "gagged and bound to pay bloody tribute to insatiate the ambition of the house of Hohenzollern."

LOWELL DANIELS GOING TO TEXAS

Lowell Daniels, deputy district attorney, has been called to the colors and will leave in about a week for Camp Pike, Texas, where he will report for duty. Mr. Daniels does not know to what branch of the service he has been assigned but will begin closing up his business so as to be ready to report at the end of his allotted time. The news came in a letter received today which notified him to be in Camp Pike not later than September 10. Through some delay in the post office the order did not arrive until this morning and Mr. Daniels at once took the matter up by telegraph with the result that he was given an extension of a week before leaving Tonopah.

HIGHGRADING ON THE MONTANA RESULTS IN A SHOOTING SCRAPE

A shot fired the other evening recently gave the first clue to the operations of a gang of alleged high-graders who were operating on the Montana-Tonopah leased workings. It has become well known that the leasers on this property are in the finest looking rock seen in camp since the days when "Ruby Alley" was pouring forth its regular shipments of ruby silver. The controls for the existing leasers are running regularly at \$200 and \$250 a ton and within the past month one set of leasers has realized \$50,000 from ore extracted from the 350 level and there is an apparently unlimited quantity in sight as the vein has been opened for a distance of 150 feet for stopping and the width remains fixed, never less than five feet and often widening out, to seven feet without any diminution of values. Until recently the leasers have

DARK DAYS GONE NEVER TO RETURN

(By Associated Press) LONDON, Sept. 10.—A counter attack by the Germans yesterday against the positions the British won west of Gouzeaucourt has been completely repulsed and in the same sector the British advanced during the night south of Havencourt. They made progress northeast of Neuve Chapelle and north of Armentieres. In the order of the day Field Marshal Haig announced that the British had captured 75,000 prisoners and 750 guns in four weeks. He said: "We have passed through many dark days. Please God may they never return. The enemy has now spent his effort."

GERMAN MAN POWER IS ON THE DECLINE

(By Associated Press) WASHINGTON, Sept. 10.—New evidence of the shortage of German man power has reached Washington from an authoritative source. The information states that seven enemy divisions on the western front were disbanded because of the shortage of men. One hundred and ninety-five German divisions are on the front. Only sixteen of these have not been engaged in heavy fighting during the present year. At least eight divisions have been reduced one-fourth. The report adds that the trench strength of the German army is now entirely inadequate.

It is not clear whether the German high command considers the Hindenburg line short enough for the present German forces to hold, but there are many indications that the first stand will be made there. The high-grade section of the mine is said to have already produced over \$50,000 and controls for the last shipment run around \$200 a ton. Good judges say the discovery should produce \$100,000 a month if worked for its full value, although there is no disposition to press production.

the heights north of Soissons. These are vital spots where the Germans resisted desperately but unsuccessfully the period of precaution with the fighting centered south of Cambray, south of St. Quentin and on fully. German heavy artillery is becoming active from Arras to Rheims.

Military critics are confident there is little danger of Foch letting Landerdoff buttress himself against the allied line. The Germans have been made breathless by Foch's pace and it is not likely they will get any respite.

COLORED TROOPS CAUSE GERMANS TO TREMBLE

(By Associated Press) WITH THE AMERICAN ARMY IN FRANCE (Monday), Sept. 9.—The enemy heavily shelled towns in the Woivre sector behind our lines. A German patrol attacked American outposts and were easily driven off. There was considerable patrol activity in the Vosges last night. One encounter occurred, the enemy retiring with one wounded man. Colored troops occupied one Vosges village in which French civilians were held prisoners.
